DURING THE THIRD QUARTER OF 2021

- **22,140** Cases entered onto SSNAP by **178** teams
  
  Item reference: F1.1

- **12,405** Six Month Assessment follow ups (37.9% of all applicable patients)
  
  Item reference: M4.4, 4.5 & 4.6

KEY FINDINGS

**How has stroke care quality been maintained during the pandemic? Jul-Sep20 vs Jul-Sep21**

- **-12.5%** less patients were directly admitted to the stroke unit within 4 hours of clock start, at only 46.8% for Jul-Sep21.
  
  Item reference: G7.18.1

- **+1h 38mins** median time from clock start to being assessed by a stroke consultant is 10h 04mins, 1h 38 mins more than in JulSep20.
  
  Item reference: G9.14

- **+3.1%** slight increase in applicable patients screened for nutrition and seen by a dietitian by discharge, at 81.3% for Jul-Sep21.
  
  Item reference: J16.15.1

- **+1.7%** increase in patients discharged with a stroke/neurology specific service (ESD and/or CRT), at 59.5% for Jul-Sep21.
  
  Item reference: J12.3

Item reference: All item references refer to the National Portfolio, Period 33, Jul-Sep21.
What’s New?

This is the first quarter that SSNAP has produced data for new measures, following the update of the SSNAP dataset in July 2021. New questions were introduced covering the different stages of the stroke pathway, and the Portfolio format has been updated to a new design that presents the data in an innovative way, organised by ISDNs for easier comparison.

7.2% Patients had dementia as a co-morbidity prior to admission.

First modality of brain imaging:
- 88% Plain CT.
- 7.8% Intracranial Angiogram.

20.7% scans interpreted with the help of Artificial Intelligence.

Covid status.
- 1.4% patients tested positive.
- 66% Covid present on admission.
- 34% Covid detected during stay.

New Rehab assistants provision of therapy questions.
- 80.3% patients required OT.
- 32.5% Patients received OT from a rehab assistant.
- 38.5% of OT minutes provided by a rehab assistant (median).

EQ5D-5L questionnaire at 6 months.

Nursing care now captured at Community level.

* This will first be reported in July-December 2021 outputs.
