

Title	Last Name	First Name	Personal pecuniary interest	Personal family interest	Non-personal pecuniary interest	Personal non-pecuniary interest
	Adam	Bevins	None	None	None	None
Dr	Adrian	Parry Jones	None	None	None	None
Dr	Ajay	Bhalla	None	None	None	None
	Alison	McLoughlin	None	None	None	None
	Alyson	Warland	None	None	None	None
Dr	Amit	Kishore	I have previously received honoraria funding for attending conferences from Boehringer, Bayer and Pfizer.	None	Bayer have provided a grant for a quality improvement project in AF detection at Salford Royal NHS Foundation Trust	I have published research in areas involving stroke prevention (detection of atrial fibrillation after stroke using invasive and non-invasive cardiac monitoring) and have expressed opinion on use of prolonged cardiac monitoring.
Prof	Ann	Ashburn	None	None	None	Until March 2016 I was a specialist lead for Stroke Research for Wessex CRN and sub-specialty lead for rehabilitation in stroke for the National CRN
	Ann -Marie	Hughes	None	None	None	On steering committee and education committee for the International Industry Society for Advanced Rehabilitation Technologies IISART http://www.iisartonline.org/home/ I have been a member of the EU Cost Action for Rehabilitation Robotics, and am currently co-authoring European guidelines for upper limb assessment. I am awaiting Erasmus+ funding to run a European Master on Advanced Rehabilitation Technology Recent research projects for improving upper limb function in stroke patients have included LifeCIT (constraint induced movement therapy with a motivational software package), tDCS and robotic therapy, and iterative learning control and functional electrical stimulation.
Dr	Anne	Forster	None	None	I have undertaken research addressing the needs of patients after stroke for many years. I have received funding from a variety of charitable and government funding bodies. I have not received funding from any commercial organisation.	None
Dr	Anthony	Kenton	I have been sponsored by BI to go to ESC (as you know)- payment for travel/registration/hotel	None	None	None
Dr	Anthony	Pereira	None	None	None	None
Dr	Baldwin	Neil	Lecture fees. Ad-hoc advisory role. Bayer; Boehringer-Ingelheim; BMS	None	None	None

Mr	Barrick	Jon	None	None	As CEO of Stroke Association I have an interest in the financial wellbeing of that organisation. Ditto I am President of SAFE Stroke Alliances for Europe and WSO Board Member	None
Dr	Barry	Moynihan	I am the Principal Investigator for several trials at St. George's, including TARDIS, SOS, Stroke-Inf, DIAS-4, MAG, Multi-Stem, IRIS. I have received honoraria for non-promotional talks and travel grants to attend meetings from Pfizer, BMS, Bayer, Lundbeck and Boehringer.	None	None	None
Dr	Berenice	Carter	None	None	None	None
Dr	Bowen	Audrey	None	None	Part of my salary was paid by Stroke Association for five years to conduct stroke research	My university role includes securing research funding to conduct stroke rehabilitation studies which may be considered for inclusion in the guideline.
Mr	Brand	Dominic	None	None	None	Director of marketing & External Affairs Stroke Association
Dr	Bray	Benjamin	None	None	None	None
	Cameron	Lindsay	I have received honoraria for teaching from Allergan Ltd and Ipsen Ltd.	None	None	None
	Carmel	Noonan	None	None	None	None

					<p>previously and currently (please see attached list). I lead for Education and Training on the UK Stroke Forum's Steering Group and Scientific Committee. As such I have been involved in the development of the Stroke-Specific Education Framework and its toolkit (initially funded by the Department of Health, but latterly supported by the UKSF and hosted by the Stroke Association), including the development of the new website. The recent developments in the website were funded through an innovation voucher provided by UCLan to its Innovation Lab. CURRENT GRANTS</p> <p>Improving Cardiac Arrest Recognition and Effectiveness (ICARE). Department of Health. Applicants: Watkins C, Leathley M, Jones S, Gibson J, Sutton C, Price C, Siriwardena N, Roberts D, Quinn T, Dewitt D, Mackway-Jones K. Awarded £595,408. 2015.</p> <p>Psychological support for people with stroke. Applicants: Watkins C, Lightbody L, Sutton C, Britt D, Leathley M, Hackett M, Larkin C, McGovern A, Vaughan J, Foster J, McConville H. NIHR CLAHRC NWC. Improving Mental Health Theme. Awarded £226,316 (+matched funding). 2014.</p> <p>OPTIMUS. Optimization of stroke care. SRP-grower 2013 (Vrije Universiteit Brussel). Applicants: Brouns R, Putman K, Dupont A; Collaborator: Watkins C. Awarded €490,000 (=£416,415). 2014.</p> <p>Exploring Models of Stroke Care: Implementation, costs, and benefits. NHS England. Cheshire and Merseyside Strategic Clinical Networks. Applicants:</p>	
Prof	Caroline	Leigh Watkins	None	None		None
Dr	Chris	Price	None	None	None	None
	Claire	Howard	None	None	None	Lead for the British and Irish Orthoptic Society stroke and neurological specialist interest group. Principal investigator in the VISION trial and IVIS study (stroke and vision projects).
Mrs	Clements	Karen	None	None	None	None
Dr	Clifton	Andrew	None	None	None	None

Dr	Cloud	Geoffrey	Educational grant from Boehringer-Ingelheim to cover expenses (travel/accommodation) to the International Stroke Congress, Feb 2014, and now WSC October 2014. I have received speaker fees for non-promotional talks on atrial fibrillation for Boehringer-Ingelheim, Bayer and Pfizer; Non promotional lecture fees and advisory fees from Boehringer-Ingelheim, Pfizer/BMS, Astra-Zenacor and Bayer.; Non promotional lecture fees and advisory fees from Boehringer-Ingelheim.	None	None	I am the principal investigator of a number of stroke research trials; I am the principal investigator of a number of stroke research trials
			In the last 12 months I have received an honoraria from Boehringer for acting in an advisory role following the MHRA review of alteplase for ischaemic stroke. I have also received funding from Boehringer to attend the European Stroke Organisation Conference 2015 and 2016.			Independent member of the TARDIS Trial Steering Committee; Chair of the Pneumonia In Stroke Consensus (PISCES) group; Co-Cl on studies of IL-1Ra in stroke and metabolomics for the detection of stroke-associated infections; published systematic review of detection methods for AF after stroke; local PI for several NIHR portfolio hyperacute/acute stroke studies group; Co-Cl on studies of IL-1Ra in stroke and metabolomics for the detection of stroke-associated infections; published systematic review of detection methods for AF after stroke; local PI for several NIHR portfolio hyperacute/acute stroke studies
Dr	Craig	Smith		None	None	
Ms	Cunningham	Rosemary	None	None	None at present but see below for potential change.	The SLT service in Derbyshire (Derbyshire Community Health Services Trust) is participating in the Big Cactus multicentred research trial. I managed the initial discussion and set up period for the contract but am not involved as the PI for our service and do not line manage the PI. I may contribute to the study once it is up and running properly carrying out blinded assessments. This study officially started in our service in September 2014.
	Daniel	Phillips	None	None	None	None
Dr	David	Hargroves	I have received expenses for attending meetings and conferences and honorariums for non promotional talks given at conferences regarding the treatment of non valvular AF from boehringer-ingelheim, Bayer, BMS and Pfizer.	None	I am the clinical lead of the department and research supervisor for a band 7 nurse who is seconded into new research post investigating the use of NOAC agents in non valvular AF; funded initially by Bayer for 6/12 and now Boehringer-Ingelheim.	None
Prof	David	Werring	None	None	None	None
	Davis	David	Consultancy from South Western Ambulance Service NHSFT regarding Advanced Stroke Life Support.	None	None	Led UK pilot of Advanced Stroke Life Support.
Mrs	Day	Diana	None	None	None	None
Mr	Dent	Joe	None	None	None	None

Professor	Drummond	Avril	Non-Executive Director of the Derby Hospitals NHS Foundation Trust. Occasional lecture fees/honour for lectures and workshops	None	None	Chair of UK Stroke Forum. I have been involved (and am currently involved) in several studies and trials of stroke rehabilitation
	Emilia	Michou	None	None	None	None
Professor	Enderby	Pamela	I am paid to run workshops (approximately 8 times a year). A small part of these workshops includes reference to research related to stroke	None	I have responsibility for individuals involved in research related to stroke care; Research and academic reputation.	I have views regarding the management of stroke which may be related to issues under discussion. I am a trustee of the Royal College of Speech and Language Therapy. I am co-author of commissioning guidance and Cochrane review.
	Filomena	Gomes	None	None	None	None
	Fiona	Coupar	None	None	None	I have completed research within the area of upper limb interventions.
	Fiona	Jones	<p>I am the founder and director of Bridges Self-Management Limited. This is a social enterprise spin out company based at St George's University of London. I receive my salary costs of 0.6FTE as part of the secondment arrangement with Kingston and St Georges Universities. I receive no additional remuneration such as dividends or additional payment other than expenses (travel costs).</p> <p>Bridges stroke self-management programme was the intervention evaluated in one of the papers included in the new section on self-management and self-efficacy. This work was funded by RfPB NIHR (SESAME trial) in 2013.</p>	none	I was the chief investigator for the SESAME trial funded by NIHR . This work was undertaken through my academic position of reader and now Professor in the Faculty of Health, Social Care and Education, St Georges University of London and Kingston University. This work has been published in BMJ Open in 2016 and the findings included in the evidence for self-management and self-efficacy section of guidelines.	None
	Gillian	Horsey	None	None	None	None
Dr	Gompertz	Patrick	None	None	None	None
	Graham	McClelland	None	None	Starting post graduate research fellowship funded by The Stroke Association in Sep 2015	None
Dr	Hancock	Nicola	None	None	Autumn 2014: Received Proof of Concept grant from University of East Anglia, to pursue development of a device to rehabilitate walking. Work ongoing 2015; As part of my employment at the University of East Anglia, I am currently seeking translational funding to develop a walking rehabilitation device. This is in the very early stages of development	I am a member of the Acquired Brain Injury Rehabilitation Alliance; I do not lead any research but am involved in meetings where research ideas are generated (with an emphasis on stroke).
	Hazel	Dickinson	None	None	None	None
	Ian	Kneebone	None	None	Grants received Stroke Association, UK£66,160 Anxiety screening The National Stroke Foundation, Australia	Opinion on associated matters Kneebone, I. I. (2015). Stepped psychological care after stroke. Disability and Rehabilitation.

Dr	James	Martin	Fee paid work (lecture fees) from Boehringer Ingelheim, BMS/Pfizer and Bayer in relation to novel anticoagulant drugs. Fee paid work (lecture fee) from Roche in relation to anticoagulant monitoring devices.	None	The Stroke Research Network (South West) received sponsorship from Boehringer Ingelheim towards costs of its 'Joining Forces' Annual Learning Event	I sit on the National Executive of the British Association of Stroke Physicians and am a trustee of the Stroke Association, both of which have a direct interest in matters relating to stroke.
	Jane	Horne	None	None	None	None
	Jane	Marshall	None	None	None	I am a member of the Royal College of Speech and Language Therapists, which has an interest in the outcome of this review.
	Janet	Cockburn	Royalties from work on developing neuropsychological tests in 1980s; Revermead Perceptual Assessment Battery (GL Assessment); Riverhead Behavioural Memory Test, Behavioural Inattention Test (both Pearson Educational).	None	None	None
Dr	Jenkinson	Damian	Lecturing and advisory fees. Boehringer Ingelheim, Ge Healthcare and BMS/Pfizer	None	None	President of British Association of Stroke Physicians, Trustee of Stroke Association, Clinical Lead Wessex NIRH: Comprehensive Research Network, Division 2, Chair Stroke Forum, Wessex Strategic Clinical Network
Dr	Joanna	Fletcher Smith	None	None	I am the Principal Investigator for the NIHR RfPB grant funded 'Early electrical stimulation to the wrist extensors and wrist flexors to prevent post-stroke complications of pain and contractures in the paretic arm – a feasibility study' (ESCAPS study).	None
	Joanna	Lancaster	None	None	None	None
Dr	John	Bamford	None	None	None	Past-President, British Association of Stroke Physicians, Trustee, The Stroke Association (2006 - 2014), Chairman, IDMEC, CLOTS I, II, III Trials, Chairman, IDMEC, GALA Trial, Chairman, TSC, ICSS Trial, Chairman, TSC, ECST2 Trial, Chairman, TSC, VIST Trial, Chairman, IDMEC, TICH2 Trial, Chairman, IDMEC, RESTART Trial, Chairman, IDMEC, RATULS Trial, Chairman, IDMEC, DARS Trial, Chairman, IDMEC, IL-1Ra Trial
Dr	Jonathan	Birns	None	None	None	None
Dr	Jones	Amanda	None	None	None	None
Dr	Jones	Phil	None	None	None	None
	Josephine	Gibson	None	None	None	None
Dr	Judi	Edmans	None	None	None	None
	Julie	Morris	None	None	None	None
Dr	Kate	Hellier	I have received payments for lectures from Bayer and Boehringer, also Boehringer have paid for me to go to a conference, and Bayer are taking me to Barcelona	None	Bayer, Boehringer and Pfizer have shared funding of a clinical pathway manager in my Stroke department in 2015-16	None
Dr	Kate	Radford	None	None	None	None
	Katerina	Hilary	None	None	None	I have research publication in the area of aphasia

	Kathryn	Jarvis	None	None	None	I have just completed a thesis entitled 'Occupational therapy for the upper limb after stroke: implementing evidence based constraint induced movement therapy into practice'. This was not relevant to any of the papers I have reviewed to date.
	Kerry	Hanna	None	None	None	None
Dr	Kilbride	Cherry	I have recently (June 2015)undertaken some teaching for Allergan I relation to spasticity management and the National Splinting guidelines (of which I am the lead author).	None	None	None
	L	Connell	None	None	None	None
Mr	Lang	Alex	None	None	None	None
Professor	Langhorne	Peter	None	None	None	None
	Lauren	Hepworth	None	None	None	None
Dr	Lindsey	Dow	None	None	None	None
	Lisa	Bunn	None	None	None	None
Research Associate NIHR Devices for Dignity	Lisa	Sproson	None	None	None	I have presented poster and oral presentations regarding research on an AMPCARE Effective swallowing protocol rehabilitation programmes for persistent dysphagia post-stroke. The protocol involves transcutaneous electrical stimulation in combination with simultaneous swallow strengthening exercises.
	Louise	Gilbertson	None	None	None	I am a member of the British Association of Occupational Therapists and COT Specialist Section, Neurological Practice. Between 2000 and 2007, I was involved in a randomised trial of home based occupational therapy for patients with stroke and contributed to a meta-analysis group evaluating the community occupational therapy for patients with stroke.
	Louise	McGregor	None	None	None	None
	Mark	Smith	None	None	None	None
Dr	Martin	Punter	None	None	None	Previously local PI for SRFT on two acute stroke studies (DIAS 4, and ClotbustER). Local Co-I for TICH-II at SRFT. Previously served as member of alteplase expert witness group for MHRA. Previous vice-chair of BASP trainees committee. Current member of ABN advisory group for stroke.
	Mary	Cramp	None	None	None	I have previously conducted and published research about excersize/ stregnth training and stroke

Dr	McCormick	Michael	BI educational grant to attend ISC 2014(not passed yet) /ESC 2013.Educational grant by Allergen to attend speciality course in November 2015. Speaker at sponsored educational event/advisory grou BMS – Pfizer	None	None	Research on Hyperglycaemia. Recruited patients to randomised trial examining the effect of Glucose Potassium Insulin infusion versus placebo in acute ischaemic stroke. No benefit in achieving euglycaemia. Recanalisation appears important. Risk of Hypoglycaemia. Views expressed in Annals of Neurology
Mrs	McGregor	Louise	None	None	None	None
	McKevitt	Chris	None	None	None	None
	Michelle	Gibbs	None	None	None	I am a registered dietitian
	Najma	Khan	None	None	None	None
	Niamh	Kennedy	None	None	None	None
	Nicole	Dodsworth	None	None	None	None
Mr	Norbury	Robert	None	None	None	None
Professor	Patel	Anita	None	None	Economic lead for a NICE-funded external assessment centre – work is cross-clinical and may include assessments of medical technologies for stroke treatment	I have carried out several economic evaluation of interventions related to stroke;I have carried out several economic evaluation of interventions related to stroke
Dr	Peter	Knapp	None	None	None	None
	Philip	Carman	None	None	None	None
	Philip	Meakin	None	None	None	None
Prof	Philippa	Logan	None	None	None	None
Dr	Power	Michael	None	None	None	None
Dr	Pownall	Sue	None	None	Sheffield SLT Dept is carrying out its research into Ampcare Effective Swallowing Programme (NMES), which is partly funded by the company Ampcare LLC Texas, alongside NIHR funding.	RCSLT Advisor on NICE consultation for NMES statement (Neuro-muscular Electrical Stimulation for Dysphagia).
	Praveen	Kumar	None	None	None	None
	Preetpal	Kainth	None	None	None	None
Dr	Price	Jason	None	None	None	None
	Rebecca	Palmer	None	None	None	None
Professor	Rodgers	Helen	I will receive 1pa from NIHR Stroke Research Network until 31.3.15.;Until April 2015 I was an associate director of the Stroke Research Network with responsibility for patient, carer and public involvement	None	None	I serve on the ESO Stroke Unit Certification Committee.;I have given lectures to local, national and international meetings about stroke care. In particular I give regular talks about robot-assisted rehabilitation and ESD. I am president-elect of the British Association of Stroke Physicians. I have recruited participants in multicentre studies. I lead a research programme about organisation of stroke services and evaluation of rehabilitation.;I have given lectures to local, national and international meetings about stroke care. In particular I give regular talks about robot-assisted rehabilitation + ESD
	Rose	Bosnell	None	None	None	None
Dr	Rowe	Fiona	None	None	NIHR fellowship for project on stroke and visual impairment. 2013-2017	Director of Research for BIOS and member of BIOS stroke and neuro rehab. SIG;Member of BIOS stroke and neuro rehab. SIG

Professor	Rudd	Anthony	None	None	None	National clinical director for stroke, NHS England. Honorary vice president, Stroke Association. Member of King's College London Stroke Research Group.
Highly Specialist Speech and Language Therapist	Sabrina	Eltringham	None	None	None	None
	Sally	Davenport	None	None	None	None
	Sally	Knapp	None	None	None	None
	Sarah	Finlay	None	None	None	None
Mr	Simpson	Stephen	Paid fee for advice on clinicians' role in administrating thrombolysis.	None	None	None
	Stefan	Kulnik	Starting on 04 November 2014-03 November 2015, I have been and will be an employee of Bridges Self-Management LTD, a UK based social enterprise providing training, consultancy and research in provider-based self-management support for people living with long-term conditions, including stroke. After 03 November 2015, I will maintain a professional affiliation with Bridges by providing ad hoc and short-term research support	None	None	I am a full member of the UK Chartered Society of Physiotherapy, and Physio Audstria, both national professional interest organisations for physiotherapists#
	Stephanie	Jones	None	None	None	None
	Stephanie	Tempest	None	None	None	1. Research interest and publications are on the use of the ICF to aid communication in stroke care – a conclusion of a research project. 2. Volunteer with Different Strokes including helping local group to secure premises and funding from various sources including the NHS and Higher Education establishment
	Stephanie	Ticehurst	None	None	None	None

	Stephen	Ashford	<p>I have received honoraria from Ipsen, Mertz and Allergan (the three pharma companies producing botulinum toxin products available in the UK) to attend meetings in the past 12 months.</p> <p>I am currently a consultant for Ipsen on the International Upper Limb Spasticity III study (ULIS III). I am one of the four investigators for the study and lead investigator for the UK. I receive consultancy fees from Ipsen for the consultancy part of this work. The study includes all three botulinum toxin products with a licence in the UK, but is sponsored by one manufacturer.</p> <p>The botulinum toxin(s) will not be paid for by the company. The study is considering the combined toxin and physical intervention and is not an efficacy study. We are interested in the combination of treatment and what combinations (as part of normal clinical practice) give the best outcomes. Primary outcome: Goal attainment, Secondary outcome: standardised measures (including the Arm Activity measure - ArmA). The study design is therefore longitudinal and observational (but with standardised outcome measurement and intervention recording).</p>	None	None	<p>I am a member of the Chartered Society of Physiotherapy (CSP), the Association of Chartered Physiotherapists Interested in Neurology (ACPIN), the Society for Research in Rehabilitation (for which I hold a council post). I am also a member of a number of international professional organisations promoting neurological rehabilitation.</p>
	Susan	Hunter	None	None	None	None
	Sushmita	Mohaptra	None	None	None	None
Dr	Thomas	Shirley	None	None	None	Involved in stroke rehabilitation studies which may be considered for inclusion in the guidelines.
Professor	Tyrrell	Pippa	None	None	None	I am a trustee of the Stroke Association and member of the R+D strategy committee and Chair of its Research Awards Panel.
	Varsamis	Dimitri	None	None	None	None
	Victoria	Teggart	None	None	None	None
Professor	Wade	Derick	None. I do not directly have any such interest. I am employed by NHS to see patients	None	None	I have researched and written on many aspects of stroke and rehabilitation. I am involved in several projects now. I edit a journal and review papers etc.
Professor	White	Philip	Consultancy work for two medical device companies: (1) Codman -- educational; (2) MicroVention Terumo Inc. NOT producing any product/services under consideration by NICE (to my knowledge)	None	My employer, Newcastle University, receives research funding from many industry partners. Research funding—I hold a grant co-funded by a medical device company (MicroVention Terumo) – but NOT producing any product/services under consideration by Nice (to my knowledge).	None except membership of professional bodies: British Society of Neuroradiologists; UK Neurointerventional Group; Royal College of Radiologists. On-going research portfolio in imaging and neurointervention.
Ms	Williams	Marney	None	None	None	None
	Xu	Wang	None	None	None	None

Dr	Young	Gavin	None	None	None	I am a member of RCP, BASP and ABN. I have carried out research regarding some aspects of stroke management (specifically imaging of carotid stenosis); I am a member of RCP, BASP and ABN. I have carried out research regarding some aspects of stroke management (specifically imaging of carotid stenosis)
